Summary

Passionate Software Developer with a Full Stack Flex Web Development Certificate from Rutgers University. Proficient in JavaScript, CSS, React, Vue, SQL, and more. Creative problem-solver with a mobile-first mindset, leveraging a background in education for effective teamwork and communication.

Technical Skills

Proficient in JavaScript (React.js, Vue.js), Node.js, and front-end technologies like HTML, CSS, SASS, jQuery. Experienced in back-end development with SQL (MySQL, Sequelize) and NoSQL (MongoDB, Mongoose) databases. Skilled in server-side scripting with Express.js, and working with tools like Axios, Apollo Server, Insomnia, and GraphQL. Familiar with version control using GIT, cloud platforms like Firebase and Heroku, and responsive design frameworks including Bootstrap and Bulma.

Featured Projects

Task Sandwich

Feb, 2023

GitHub: <https://github.com/sam-lerner/task-sandwich>

A MERN project-management platform with built-in rewards system.

- Developed clean front-end using React.js, HTML, CSS, and Bootstrap for intuitive, user-friendly experience.
- Implemented mobile-first responsive web design.
- Utilized Node.js and React.js components to interact with MongoDB, Apollo Server, and GraphQL for seamless database operations.

Street Cuisine Review

Aug, 2023

GitHub: <https://github.com/ekirbs/street-cuisine-review> (Ongoing)

An app to find the location of and information about street vendors in different US cities.

- Developed complex front-end using Vue.js, HTML, CSS, and Bulma with integrated state management.
- Built back-end and authentication services with Firebase Firestore.
- Integrated external APIs and established server, routers, and connections for CRUD operations.

MVC Tech Blog

Dec, 2022

GitHub: <https://github.com/ekirbs/mvc-tech-blog>

A CMS-style blog site where developers can publish their blog posts and comment on other developer's posts.

- Created the front-end using Handlebars, HTML, CSS, and JavaScript.
- Constructed full back-end using mysql12 and Sequelize database with Express.js server

- Incorporated encryption with bcrypt
- Developed a JavaScript-based app for an engaging user experience.
